

## JALAN MAGNET / WINDING WIRE

**Double Glass Fibre Covered (D.G.F.C.) Aluminium Wire / Enamelled D.G.F.C. Aluminium Wire – Round / Rectangular**

*Preferred aluminium wire for electrical industry applications*

- ▶ Jalan Wires Pvt. Ltd. is certified ISO 9001:2008 company
- ▶ Experience in Aluminium Wires since 1987
- ▶ Leading manufacturer of Aluminium Magnet / Winding wires in India
- ▶ Requisite production capacity to manage just in time delivery
- ▶ State of the art production technology matching current global standards ensuring overall optimization of its processes
- ▶ Wide diameter range and spool options available to suit use of various applications
- ▶ Special packing design for smooth handling and efficient utilisation of your storage space

### Application & Specifications

Application	:	Dry type Transformers, UPS transformers, Inverter, Power reactors, DC choke, Welding machine, etc.
Size range	:	D.G.F.C. Round – 1.00 mm to 8.00 mm D.G.F.C. Rectangular – 8.00 sq.mm to 80.00 sq.mm En. D.G.F.C. Round – 1.00 sq. mm to 5.00 sq. mm En. D.G.F.C. Rectangular – 4.00 sq.mm to 27.00 sq.mm
Insulation range	:	Class F, 'H' & 'C'
Packages	:	Wooden / Plastic Reel; 30 – 100 kgs

Customised sizes and packages as per requirement can be provided.

*Jalan Wires Pvt. Ltd. also offers Aluminium Wires for use in other industries like Food Packaging, Packaging Films, Surface Coating, Fasteners, Construction, etc.*
